

ATTICUS GEIGER

Stanford University
atticusg@stanford.edu

EDUCATION

Ph.D. Linguistics

Stanford University, Stanford, CA

September 2019 -

M.S. Computer Science

Stanford University, Stanford, CA

September 2016 - June 2019

B.S. Symbolic Systems

Stanford University, Stanford, CA

September 2015- June 2019

CAREER HISTORY

PhD Research, Stanford University

September 2019 -

- Advised by Christopher Potts and Thomas Icard
- Primary author publications at NeurIPS, EMNLP, and Black Box EMNLP
- Collaborated with and mentored several master's students and undergraduates

Honors Thesis Research, Stanford University

June 2018 - September 2018

- Acquired grant for self led natural language inference research project advised by Chris Potts, Thomas Icard, and Lauri Karttunen
- Constructed artificial natural language inference dataset using logic models
- Designed task specific neural model with standout performance on the generated datasets

Symbolic Systems Research Intern, Stanford University

June 2017 - September 2017

- Worked with Lauri Karttunen and Ignacio Cases to create a Natural Language Inference dataset focused on implicatives
- Implemented neural network models for natural language inference in Tensor Flow

Software Engineer Intern, Alaska Satellite Facility

June 2016 - September 2016

- Created a AWS cloud processing infrastructure and website interface
- Provided a service that automatically processes incoming satellite data
- Accomplished significant, largely self led software implementation

SKILLS

Programming: Python, C++, C, TensorFlow, PyTorch, AWS

Social Skills: I love collaborating and find great joy in mentoring!

AWARDS AND HONORS

Firestone Medal Award for B.S. honors thesis titled *Can Natural Language Inference Models Perform Natural Logic Reasoning?* and advised by Chris Potts and Thomas Icard.
